Career Objective

To build a strong career in Artificial Intelligence and Machine Learning by applying my programming and analytical skills. I aim to develop intelligent solutions using modern technologies while continuously learning and improving my technical expertise. I am motivated to contribute to innovative projects in the field of AI and data-driven technologies.

Core Competencies

- Basic Machine Learning
- Web Development (HTML, CSS, Tailwind, React)
- Java Programming
- Microsoft Excel
- Problem Solving
- Frontend Development
- Basic AI/ML Concepts
- Basic Programming (C, C++, python)
- Photo editor (photoshop)

Projects

Project 1: Movie Rating Website

- Developed a responsive movie rating website using HTML, CSS, Tailwind and React.
- Users can browse movies and provide ratings.
- Implemented a clean UI and responsive design

Project 2: E commerce Website

- Built an e-commerce clothing website using HTML, CSS, Java and React.
- Designed product listing pages and shopping interface.
- Focused on responsive design and smooth user experience.

Project 3: Small Web Development Projects

- Created multiple mini projects to practice frontend development and UI design.
- Strengthened skills in HTML, CSS, Tailwind and React.

Education

Master of Computer Applications (MCA) | Rayat Bahra University, Mohali

Specialization: Artificial Intelligence /Machine Learning

Expected Graduation: Aug 2027

Bachelor of Computer Applications (BCA) | Rayat Bahra University, Mohali

Graduated: Aug 2025 | CGPA: 7.6 /10

Certifications

- **Web Development Certification (1 Year)** - Slr infotech Training included HTML, CSS, JavaScript, React and Web Development Fundamentals

Additional Skills

- HTML
- CSS
- Tailwind CSS
- Java
- React
- Data Analysis
- Microsoft Excel
- Problem Solving
- Communication & Teamwork
